

Physics 106 Labs – ALL SECTIONS
SYLLABUS – SPRING SEMESTER, 2024

Week of	Room #	Experiment
Jan 29	104	The Simple Pendulum
Feb 5	104	Introduction to Data and Error Analysis
Feb 12	104	Acceleration of Freely Falling Bodies
Feb 19	102	Rotational Motion
Feb 26	102	Ballistic Pendulum
March 18	104	Transverse Waves in a String under Tension
March 25	101	Viscosity
April 1	104	Gas Laws
April 8	104	Estimation of the Molecular Size and Avogadro Number
April 15	104	Measurement of Specific Heat, Latent Heat of Fusion

IMPORTANT NOTES

1. The text of the upcoming experiment must be studied before coming to class. The text is available online in the Course Documents on Blackboard;
2. In the PRE-LAB TESTS folder on Blackboard there are two-problem online pre-lab tests based on the text of each experiment. The aim of the tests is to stimulate the independent study. Each pre-lab test contributes max 1.5 points credit towards the 100 points max final grade, aggregating to 15% of it. Deadline for the responses is one hour before the lab start;
3. There will be at least four in-lab quizzes during the semester over material of passed labs. They will count another 15% of the final grade;
4. Showing up on the first two class sessions is of high importance, so much so that missing them leads to automatic drop of the course;
5. One missed lab out of ten will decrease your lab report portion of the final grade by 10% automatically. Two missed labs will result in a failing grade. **Legitimate emergency cases should arrange for make up immediately** by contacting both the labs office at ugradlabs@physics.miami.edu and lab class instructors (regular and make up). There are no reading days for the labs, therefore no make ups can be performed past the last lab week.
