

Physics 108 Labs – ALL SECTIONS
SYLLABUS – SPRING SEMESTER, 2024

Week of	Room #	Experiment
Jan 29	100	The Millikan-Fletcher Experiment
Feb 5	102	Equipotentials and Electric Fields
Feb 12	100	DC Electrical Measurements
Feb 19	101	Force Between Two Current-Carrying Wires
Feb 26	100	The Oscilloscope and its Use
March 18	100	Alternating Current Circuits
March 25	102	Geometrical Optics
April 1	102	Interference and Diffraction of Light
April 8	101	Determination of the Ratio e/m for the Electron
April 15	101	The Spectrum of Hydrogen

IMPORTANT NOTES

1. The text of the upcoming experiment must be studied before coming to class. The text is available online in the Course Documents on Blackboard;
2. In the PRE-LAB TESTS folder on Blackboard there are two-problem online pre-lab tests based on the text of each experiment. The aim of the tests is to stimulate the independent study. Each pre-lab test contributes max 1.5 points credit towards the 100 points max final grade, aggregating to 15% of it. Deadline for the responses is one hour before the lab start;
3. There will be at least four in-lab quizzes during the semester over material of passed labs. They will count another 15% of the final grade;
4. Showing up on the first two class sessions is of high importance, so much so that missing them leads to automatic drop of the course;
5. One missed lab out of ten will decrease your lab report portion of the final grade by 10% automatically. Two missed labs will result in a failing grade. **Legitimate emergency cases should arrange for make up immediately** by contacting both the labs office at ugradlabs@physics.miami.edu and lab class instructors (regular and make up). There are no reading days for the labs, therefore no make ups can be performed past the last lab week.
