

PHY224 SYLLABUS - SUMMER B semester, 2024

Date	Room	Experiment Title	
JUNE	17	104	Introduction to Data and Error Analysis
	21	104	Acceleration of Freely Falling Bodies
	24	104	Viscosity
	26	104	Gas Laws
	28	104	Measurement of Specific Heat, Latent Heat of Fusion
JULY	1	104	Transverse Waves in a String under Tension
	3	100	Measurement of the Speed of Sound
	5	104	Geometrical Optics
	8	102	Interference and Diffraction of Light
	10	102	Determination of the Refractive Index of Air

IMPORTANT NOTES

1. The text of the upcoming experiment must be studied before coming to class. The text is available online in the Course Documents on Blackboard;
2. In the PRE-LAB TESTS folder on Blackboard there are two-problem online pre-lab tests based on the text of each experiment. The aim of the tests is to stimulate the independent study. Each pre-lab test contributes max 1.5 points credit towards the 100 points max final grade, aggregating to 15% of it. Deadline for the responses is one hour before the lab start;
3. There will be at least four in-lab quizzes during the semester over material of passed labs. They will count 15% of the final grade and will substitute for the final exam;
4. Showing up on the first two class sessions is of high importance, so much so that missing them leads to automatic drop of the course;
5. One missed lab out of ten will decrease your lab report portion of the final grade by 10% automatically. Two missed labs will result in a failing grade. Legitimate emergency cases should arrange for make up immediately (no reading days for labs) by contacting the lab class instructor and the labs office at ugradlabs@physics.miami.edu.
